Practical Halacha - laws of kiddush

The cup for kiddush should be without any cracks or holes. If a cup without a defect is unobtainable, a damaged one may be used as long as it holds a revi'is of wine. This is somewhere between 3 and 5 fluid ounces. If no cup is available, you may make kiddush even on a bottle of wine. Since kiddush on Friday night is min HaTorah It is better to use the larger shiur.

The kiddush cup should be clean inside and outside. It does not need washing if it is clean. It is better to avoid using a disposable cup for kiddush. If nothing else is available such a cup may be used. The cup should be full but not overflowing.

It is preferable to use red wine, unless one prefers white wine. Grape juice is acceptable according to most opinions. The wine should be uncooked according to some opinions. Pasteurized wine is acceptable, according to many opinions. Reconstituted grape juice is acceptable according to many opinions.

Good Shabbos,  
Rabbi Cohen
